Michigan is a beautiful place. The seasons are one of the best things about Michigan. Autumn is the best season, with all its different colors. It's the best time to ride horses. You can relax, enjoy the scenery and it's not too hot and not too cold, with a slight breeze in your hair. It's very peaceful. The one thing that makes Michigan stand out is our Great lakes; Like Lake Huron, Lake Ontario, Lake Michigan, Lake Erie and Lake Superior, or also known as HOMES.

Michigan would not be the same without Amish. The Amish are very generous people. They do not bother anyone. They are all about family and working with the land. They also do not pollute the air. They use horse and buggy for their transportation. They do not use electricity, instead they use oil lamps. They also make great friends.

We need to change how we treat the land and the place where we live. We need to update our roads and not just the main roads and we need to pay attention to the back roads as well. We would have to set up donations for the roads that need to be fixed. We also need to make it easier for people to recycle. Some things can not be recycled because it has 2 recycle signs. The recycling centers should take them than transfer those items to another facility or just take the materials themselves. We also need to change how we treat our animals, especially the animals in threat of being extinct. We need to help plant trees and help keep the woods and water ways clean of pollution; like trash, waste, and gas or oil. If we do not start being careful, we will lose every thing including our land. We have to be careful.

My vision for our state in the future is unclear. I'm not sure what it will be. I would like to see us improve how we treat the land. I would also like to see people get along with one another better. We must raise our children better to where they are not rude and can not be controlled. My vision is still unclear, but over the years to come it will get clearer.

Please help us make our world a better place to live. We have to look out for our kids and their kids to come. If we work together we can make Michigan a better state than the rest and we will know that our children will be safe because we helped out and made it possible for them to live in healthier place. Michigan is our home; why not make it a home to others. Help us make Michigan a better place to visit and to live. Like you we love the place where we live and want it that way forever.
