**Add your voice to important Education policy discussions
that will be a focus of the 2010 statewide elections.**

- **Performance:** What is the return for Michigan's investments in pre-school, K-12, and higher education?
- **Funding & Affordability:** How much should Michigan invest in pre-school, K-12, and higher education programs? What more can be done to assure affordable access to all levels of education?
- **Innovation:** What additional innovative steps can Michigan take to best prepare students to participate in Michigan's transforming economy?

Each participant will receive an easy to understand Issue Guide outlining education funding and policy details. Panel discussions will include audience participation and real-time audience voting on key issues.
